Who We Are

Women's International Shipping and Trading Association

WISTA USA, founded in 1997, is the largest National WISTA Association in the world, with 900 members spread across twelve regional Chapters. WISTA USA's mission is to provide networking and educational opportunities for members. In pursuit of these objectives, regional Chapters hold regular meetings, seminars, and networking opportunities throughout the year, often in conjunction with larger marine industry events. In addition, the WISTA USA Annual General Meeting (AGM) takes place each spring, and the International Conference, open to all WISTA members worldwide, takes place each fall. All of these events – whether local, regional, national, or international – provide tremendous business development and educational opportunities for our members and thereby enhance the benefits of membership in the organization.
